# STUDENT TESTIMONIALS

**Deepender Rana**

**"Coming from a B.Sc. Physics background, I couldn't have learnt programming in a better manner. I gained a lot of confidence, built projects, did mocks. The direction & guidance by them is invaluable. I couldn't imagine getting a tech role before Sigma Academy. I would highly recommend it!"**

**Himanshu Saroha**

**"Sigma Academy has been a life-changer for me. From doing an internship in the core domain, to making a transition to a Software Development role in a product-based company, it has been an amazing journey with them. I would wholeheartedly like to thank Sigma's super helpful team and mentors.."**

# NEW AGE SKILL SET

Our program is focused to make the student Industry Ready. We teach new age skills required by companies.

HTML, CSS and Javascript are the building blocks of every internet page. With this skillset, you'll be able to develop every web interface!

React is a JavaScript library for creating user interfaces used by some of the best Tech Companies. (Facebook, Instagram, AirBnB)

Node.js is a multiplatform object oriented library event-oriented for Server-Side JavaScript applications.

MongoDB is one of the most important non-relational database. We'll use it to store data in form of file, granting us scalability and flexibility.

Express is a framework for web apps based on Node.js. We'll use it to create fast and performing Web Servers and Web Services

Bootstrap4 is the most adopted framework to create web interfaces. It allows fast and easy creation of responsive web pages.
